

RESOLUTION

concerning the Report of Inspectors Efimov and Kaddour  
on staff costs in the United Nations

The ILO Staff Union, convened in its Annual General Meeting of 7 October 1985,

HAVING BEEN INFORMED of the second report by two inspectors of the Joint Inspection Unit on "staff costs in the United Nations Secretariat", which in fact concerns the whole of the common system;

NOTING the unwarranted and defamatory attacks launched by the inspectors against the integrity of international civil servants, their administrations and their union representatives and the threats made to the independence of the United Nations Administrative Tribunal and the trade union rights of international civil servants;

1. PROTESTS SOLEMNLY against these attacks and threats which dishonour their authors and undermine the morale and efficiency of the international civil service.
2. INSTRUCTS the Staff Union Committee, in consultation with FICSA and the other staff unions and associations, to react vigorously to these attacks and to defend the independence of the international administrative tribunals, the freedom of association of international civil servants and the rights of their representatives
